NOTE!!!

The Neion wall mount water closet pan with integrated bidet seat complies with WMTS-051.

Bidet seat has integral break tank with air gap complying with AS 2845.2. Thus it meets the High-Hazard backflow prevention requirements of AS/NZS 3500.1 without the need for a RPZ valve.

The Neion intelligent toilet, by Arcisan, was created by combining the aesthetics of a rimless toilet pan with the cleaning function of a bidet.

It may be compact in size but is not short on features! With a soft-close wrap seat, it also hosts a 2-user memory, so you can easily program your specific requirements. The Neion is fully customisable with gender specific functions, massage function, drying functions, pressure increase / decrease, air temperature controls, water temperature controls, LED night light and deodoriser (using a diatomaceous mud filter).

These functions are accessible through the easy to use remote control. There is also a quick access option for the basic functions, by simply using the control knob on the side of the seat.

The nozzle is self-cleaning before and after every use plus the tank runs a self-cleaning mode if left in standby for an extended period of time.

Concealed Cistern with frame

ARO4460-SP-NE

WELS: 4 star

Litres/min: 4.5 / 3
